NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE
DEPARTMENT OF THE ARMY
WASHINGTON, D.C.

1964

The 1964 National Trophy Matches were held at Camp Perry, Ohio July 31 through August 30. Thousands of competitors participated in the National Rifle Association and National Board for the Promotion of Rifle Practice matches. Many competitors were rewarded for their excellence in marksmanship and presented historic and valuable trophies and medals for their efforts.

The Matches are sponsored by the National Board for the Promotion of Rifle Practice in cooperation with the National Rifle Association. They are supported by personnel from all of the Armed Forces and selected civilian members of the National Rifle Association. Facilities of Camp Perry are made available to the United States Army and the National Rifle Association by the State Adjutant General.

The Small Arms Firing Schools, presented by the United States Infantry School, Fort Benning, Georgia, were attended by 5,759 competitors (2,413 for pistol, 3,030 for rifle, and 316 for police pistol). The National Matches provide incentives for both service and civilian personnel to return home and do their part to make America once again a nation of riflemen. The benefit of the marksmanship schools is evidenced by the increasing number of qualified instructors in the field of rifle and pistol shooting and the victories achieved by United States Shooters at the National Matches, International, Pan-American and Olympic Competitions.

The importance of the National Matches was stated by the late General J. M. Wainwright, then Assistant Secretary of the Army, in 1922 - "In the scheme of National Defense, I cannot conceive of anything that would better promote the important cause of rifle practice in all the Services than the great annual tourney at Camp Perry...In my judgement, it involves not only an important activity, but is and always should be regarded as one of the important events in the calendar of the military year."....

In 1906, President Theodore Roosevelt stated: "The Congress has most wisely provided for a National Board for the Promotion of Rifle Practice...we should establish shooting galleries in all the large public and military schools; maintain national target ranges in different parts of the country and in every way encourage the formation of rifle clubs throughout all parts of the land...we should encourage rifle practice among school boys and, indeed, among all classes...if a soldier has the fighting edge, and the ability to care for himself in the open, his efficiency on the line of battle is almost directly proportionate to excellence in marksmanship."

In 1960, General Lyman L. Lemnitzer stated: "Importance of marksmanship training for all American citizens who would be subject to service in case of war is a valuable contribution to National Defense..."

In 1961, our late President stated: "Through competitive matches and sports in coordination with the National Board for the Promotion of Rifle Practice, the Association fills an important role in our national defense effort....."

The spirit of America is demonstrated at Camp Perry, Ohio. It is a spirit which makes better citizens and better leaders, each in his own walk of life...it is the spirit which creates an esprit de corps in all who participate and a high regard for skilled marksmen and their importance to America. This is the characteristic quality of the National Matches.

The activity at Camp Perry is an outstanding example of the unified efforts of members of the Military Services and civilians who have a common heritage and common interest in marksmanship.

On behalf of the President of the National Board for the Promotion of Rifle Practice, I am pleased to present the 1964 National Match Official Bulletin. We offer our appreciation to the officers and men of the Armed Forces and to members of the National Rifle Association and all others who worked to insure the success of the 1964 National Matches.
